

8371 Surface MultiMag®

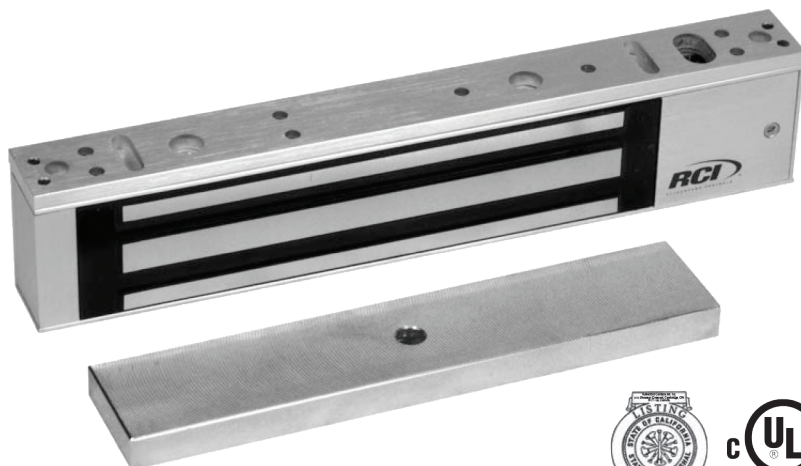

Single Mag w/Door Status Sensor, 12/24VDC

Our low-profile MiniMags® are extremely popular for interior traffic control. These electromagnetic locks install perfectly alongside most automatic door operators or stop-mounted door hardware, reducing installation time and eliminate the need for extra brackets.

The MiniMags® design of 1-7/8" width helps keep undersized openings within code. This is the ideal magnet for use on narrow-style aluminum doors!
